The City of Pleasant Grove is centrally located between 5 major Southeastern Cities: Atlanta, GA; Jackson, MS; Nashville & Chattanooga, TN; & Mobile, AL. We are only 9 miles from downtown Birmingham. And only 5 miles from Interstate 20/59.

We have a growing community with many new homes being built daily. We experience a moderate southern climate with a long growing season. We can offer many major natural resources including coal, natural gas, timber, beef and poultry to name a few. We have many types of commercial transportation available including waterway, rail, air, and ground transportation.

Another excellent benefit of locating your business in our area is our low ad valorem tax rate of only 5.97 mills which includes all forms of city, county and state taxes.

Municipal Courts hold jurisdiction over violations of city ordinance and violations of State Law if adopted through ordinance. This being the case, the Pleasant Grove Municipal Court has jurisdiction to hear all uniform traffic complaints, as well as all misdemeanor charges within the city limits and Police jurisdiction of the city. All defendants found guilty in the Municipal Court have the right to appeal the Judge's findings to the Circuit Court of Jefferson County.

## *History of Pleasant Grove*

The area known as Pleasant Grove, Alabama was first homesteaded in September, 1836. Pleasant Grove is located in Jefferson County and is a bedroom community to Birmingham. Although no one seems to know when or exactly how the town came by its name, old documents indicate that at least part of this area was called Pleasant Grove as early as 1884.

Pleasant Grove was incorporated as a city in January, 1934. The incorporation came about by reason of a rather unusual circumstance. The town sits on land honeycombed by coal mines. For many years the residents had relied on water wells for their water supply. As years passed and more mining was done, Pleasant Grove found itself confronted with a problem. Residents would sometimes go to their well to draw water only to find there was none. The water had gone into the mines.

During the mid to late 1930's, the Federal Government had a program for financing the building of local water systems. In exploring the possibility of securing such funds, it was revealed that in order to secure such financing a community must be legally incorporated. At this time the incorporation became a reality.
